

TITLE OF THESIS SUBMITTED BY THE POSTGRADUATE STUDENTS

MICROBIOLOGY

S. No.	Plan of Thesis (Year 2006)
1.	Evaluation of Polymerase chain reaction based detection of Streptococcus pneumoniae in clinical samples and Molecular Characterization of the culture isolates.
2.	Biofilm forming ability of clinical isolates of acinetobacter calcoaceticus- Acinetobacter baumannii complex
3.	Critical evaluation of quality assurance in laboratory diagnosis of tuberculosis in selected microscopy/ dots centre under RNTCP
4.	A study of serological markers of Hepatitis and Human Immunodeficiency viruses in pregnant women with hepatitis.
5.	Role of Mycoplasma pneumoniae in childhood asthma
6.	Characterization of Staphylococcus aureus with special refernce to Methicillin Resistant Staphylococcus aureus (MRSA) in patients admitted to dermatology ward.
7.	A Study of candidiasis in HIV/ AIDS Patients
8.	Role of Polymerase Chain Reaction in the diagnosis of female genital tuberculosis
