

TITLE OF THESIS SUBMITTED BY THE POSTGRADUATE STUDENTS

OPHTHALMOLOGY

S. No.	Plan of Thesis (Year 2006)
1.	To study the surgical outcome to augmented modified kestnobaum procedure in infantile nystagmus syndrome.
2.	To study the anatomical and functional outcome of Transpupillary Themotherapy in Idiopathic central serous chorioretinopathy
3.	Comparative evaluation of intra vitreal Bevacizumab versus intra vitreal Triamcinolone Acetonide in refractory diabetic macular edema.
4.	Levator placation versus resection in congenital ptosis
5.	To study elecrophysiological and psychophysical tests in anisometric and strabismic amblyopia before and after occlusion therapy.
6.	Scanning Laser Polarimetry and Frequency Doubling Perimetry II versus Standard Automated Perimetry in Primary Open Angle Glaucoma
7.	Superior oblique transposition in third nerve palsy
8.	Conjunctival and tear film changes in patients of dry eye using hydroxypropyl methyl cellulose with two different preservatives-A clinico-cytological study
9.	Role of free oxygen radicals in retinopathy of prematurity
10.	Visual outcome and vision related quality of life following cataract surgery
11.	To study the role of trabeculectomy with adjustable suture in the surgical management of glaucoma
12.	Prospective comparative evaluation of surgically induced astigmatism following bimanual phacoemulsification (1.8MM) coaxial phacoemulsification (3.2MM) and manual small incision cataract surgery (5.5MM frown)
13.	Evaluation of conjunctival limbal stem cell autograft and cadaveric limbal stem cell graft in ocular surface disorders.
14.	Clinical study of various factors resulting in opacificaion of graft after penerating keratoplasty.
