

TITLE OF THESIS SUBMITTED BY THE POSTGRADUATE STUDENTS

PATHOLOGY

S. No.	Plan of Thesis (Year 2006)
1.	“To evaluate the cytological smears by morphometry and to study androgen receptor (AR), Her2/neu expression in patients of prostate cancer”.
2.	Epithelial growth factor receptor, c-jun gene expression and NAT 2 polymorphism in squamous cell carcinoma oropharyngeal area.
3.	“To study the immunohistochemical expression of EGFR and Her 2 NEU in ovarian tumours”
4.	Assessment of bone marrow angiogenesis and cell proliferation in lymphoproliferative disorders.
5.	Brush cytology, p53 and ki67 immunocytochemistry and histopathology of oral lesions
6.	Iron status in children with behavioural disorders
7.	Study of serum cytokine profile in leprosy and its correlation with clinicohistopathological features.
8.	Study of coagulation inhibitors and activated protein c resistance in recurrent unexplained fetal losses.
9.	Role of CD4: CD8 ratio in predicting human immunodeficiency virus (HIV) coinfection in newly diagnosed tuberculosis patients and relationship of CD4 and CD8 cell count with the manifestation and morphology of tuberculosis in cases with and without HIV infection.
10.	Role of B K Polyomavirus in Renal Transplant Recipient
11.	A study of small round cell tumours by histology and Immunohistochemistry markers
