

TITLE OF THESIS SUBMITTED BY THE POSTGRADUATE STUDENTS

OBSTT. & GYNAE

S. No.	Plan of Thesis (Year 2008)
1.	Study of the association between preeclamsia and maternal periodontal disease
2.	To study and compare reagent strip testing of urine and urine microscopy as screening method for asymptomatic bacteriuria in pregnancy
3.	Role of anti hypertensive therapy for the treatment of mild hypertension in pregnancy
4.	A study to evaluate the combination of mifepristone followed by vaginal misoprostol for medical termination of pregnancy between 13 to 20 weeks of gestation
5.	Clinical features and endocrinological profile of women with spontaneous premature ovarian failure with normal karyotype
6.	Needle verses loop diathermy excision for treatment of preinvasive lesions of cancer cervix
7.	Role of hysteroscopy and chromohysteroscopy in recureent miscarriages
8.	To assess the predictive ability of the endometrial evaluation with estradiol & follicle stimulating horemone levels in success of women undergoing in vitro fertilization
9.	Evaluation of endometrium by chromohysteroscopy in patients of abnormal uterine bleeding
10.	Role of maternal serum interleukin-6 level in spontaneous preterm labor and its fetomaternal outcome
11.	Role of colposcopy in common Gynecological disorders and its correlation with Cytology
12.	Comparative study of medical obration upto 9 weeks by sublingual and vaginal mesoprostol administration following pretreatment with mefipristone
13.	"A comparative study of intravenous iron sucrose complex versus intramuscular iron dextran in the treatment of iron deficiency anaemia during pregnancy"
14.	"Study of umbilical coiling index and its relation with fetomaternal outcome in pregnancy with intra uterine growth restriction".
15.	"Study of clinical, biochemical and genetic profile of pregnant women with macrocytic anemia and its effect on fetomaternal outcome".
16.	"A study of laparoscopic findings in infertile women and their relation with chlamydia antibody status."
17.	Randomized controlled factorial study in postmenopausal women to evaluate the effect of Yoga and Phytoestrogens on Kupperman index, TNF- α and bone density
18.	Evaluation of fetomaternal outcome in women with or without periodontal disease - an observational study
19.	Role of BRCA1 and BRCA2 gene mutations in epithelial ovarian cancer in Indian population : a pilot study
20.	A case control study of gene-environmental interaction in fetal growth restriction with special reference to organochlorine pesticides: a pilot study

21.	Role of endometrial aspiration, dilatation and curettage and transvaginal ultrasonography in the evaluation of abnormal uterine bleeding
-----	--

OBSTT. & GYNAE

S. No.	Plan of Thesis (Year 2007)
1.	Cervical Cytopathology and Association with HPV Infection in HIV Positive Women
2.	Comparison of Vaginal Misoprostol With Vaginal Estradiol in Overcoming Unsatisfactory Colposcopy
3.	Randomised Trial of Intermittent Auscultation with or Without Fetal Scalp Stimulation Test in the Management of Non Reassuring Fetal Heart Rate_During Labor
4.	Serological Screening for Celiac Disease in Pregnancy Loss
5.	Visual Inspection of the Cervix with Lugol's Iodine (VILI) as a Screening Test for Premalignant and Malignant Lesions of Cervix
6.	Comparison of Intravenous Iron Sucrose Versus Oral Iron in Treatment of Post Partum Anemia
7.	To Compare the Effect of Letrozole and Clomiphene Citrate in Infertile Women Undergoing Superovulation And Intrauterine Insemination
8.	Clinicoradiological Evaluation of Pregnant Patients with Previous Cesarean Section
9.	To Study the Factors Affecting Maternal Outcome in Pregnant women with Acute Viral Hepatitis
10.	Laparoscopic Management of Adnexal Masses
11.	Detection of Pelvic Pathology by Transvaginal Ultrasound based 'Soft Markers' in Women with Chronic Pelvic Pain
12.	A study of Clinical and Pathological Factors in relation to Maternal Serum Interleukin-6 Levels in Preterm Premature Rupture of Membranes.
13.	A study of Spot Urine Protein: Creatinine Ratio As An Alternative to 24 Hours Proteinuria in the Prediction of Maternal and Fetal Outcome in Preeclampsia
14.	Role of Intrauterine Insemination in Oligo/ Asthenospermic Males treated with Clomiphene Citrate
15.	Clinical and Urodynamic Evaluation of Women with Detrusor Overactivity Before and After Interferential Therapy: A Double blind Randomised Sham Control Trial
16.	Comparison of Transvaginal Sonography, Saline Infusion Sonography and Hysteroscopy in the Evaluation of Postmenopausal Uterine Bleeding

17.	Prospective Evaluation of Clinical and Ultrasonic Feto-Maternal Parameters as Predictors of Cesarean Delivery in Induced Labour
18.	Accuracy of Pre-Operative Ultrasonography in the Evaluation of Abdominal Wall Adhesions
19.	Evaluation of Complications of Pregnancy and its Outcome in Adolescents
20.	Efficacy of Levonorgesterol Releasing Intrauterine System in Treatment of Menorrhagia due to Dysfunctional Uterine Bleeding of Leiomyoma
21.	Comparative Assessment of Posterior Compartment Prolapse by Clinical Examination and Use of 2D and 3D Translabial Ultrasonography
22.	Neurological Symptoms in Eclampsia and its Correlation with CT and MRI Findings
23.	Association of Maternal Socidemographic and Anthropometric Characteristics with Fetal Outcome
24.	Role of Intrapartum Transcervical Amnioinfusion in Patients with Meconium Stained Amniotic Fluid
25.	Fetpmaternal Outcome in Twin Pregnancy
