

TITLE OF THESIS SUBMITTED BY THE POSTGRADUATE STUDENTS

OTORHINO (E.N.T.)

S. No.	Plan of Thesis (Year 2008)
1.	Comparison of radiofrequency coblation tonsillectomy Vs dissection tonsillectomy in management of patients with chronic tonsillitis
2.	Bilateral submandibular duct transposition with bilateral sublingual gland excision in children of cerebral palsy with drooling
3.	Outcome of transcanalicular endonasal diode laser assisted dacryocystorhinostomy in patients of chronic dacryocystitis
4.	Assessment of olfactory function in patients with sino-nasal disease
5.	The role of current audiological tests in the early diagnosis of hearing impairment in infants.
6.	To study the pre and post operative videostroboscopic evaluation of benign vocal cord lesions.
7.	To compare bioactive glass particulate with hydroxyapatite granules in mastoid cavity obliteration
8.	Early detection and prevention of aminoglycoside induced ototoxicity in pediatric population using distortion product otoacoustic emissions (DPOAEs)
9.	To compare and evaluate laryngeal changes in patients with dysphonia in laryngopharyngeal reflux (LPR) before and after treatment with proton pump inhibitors (PPI) and prokinetic drugs

OTORHINO (E.N.T.)

S. No.	Plan of Thesis (Year 2007)
1.	A Comparative study of Post- Stapedotomy hearing results with a Nitinol self-crimping and a Teflon Manually Crimping prosthesis.
2.	To Evaluate the Effect of Mitomycin-c in A Comparative Study of Reconstruction of Alveolar Clefts with Mandibular Symphyseal Grafts Vis-a-Vis Lilac Crest Bone Grafts
3.	Impact of Functional Endoscopic sinus surgery for cases of Chronic Rhinosinusitis on the Pulmonary Function tests.
4.	Comparative study of Radiofrequency assisted excision and wide local excision of Preauricular sinuses
5.	Comparative study of Infiltration and Surface application of Bupivacaine in post Tonsillectomy pain.
6.	Subjective and Objective Assessment of Nasal Obstruction in Patients Undergoing Functional Endoscopic Sinus Surgery

7.	Effect of Drilling during Mastoid Surgery on the Hearing of Contralateral normal ear.
8.	To Study the Clinico –Microbiological aspects of neck Abscess with special reference to Anaerobic Organisms.
9.	To Study the Advantages and Disadvantages of External and Internal Osteotomy in Rhinoplasty
10.	FDG-PET imaging for the detection of head and neck cancer recurrence/ residual: comparison with MRI/ CT.
11.	Multivariate Predictors of speech and Audiological success with Multichannel Cochlear implants in children below the age of five years.
