

## TITLE OF THESIS SUBMITTED BY THE POSTGRADUATE STUDENTS

### MDS

<b>S. No.</b>	<b>Plan of Thesis (Year 2008)</b>
1.	Evaluation of 2-D and 3-D radiography with direct surgical assessment of periodontal osseous defects : a clinical study
2.	Periodontal Diseases and diabetes mellitus-A prevalence study
3.	Comparison of the position of the condyle and disc in symptomatic and asymptomatic patient through lateral transcranial view and magnetic resonance imaging - a clinical study
4.	Comparative evaluation of the esthetics, primary stability and soft tissue response of zirconium implants with titanium implants - An In- Vivo Study
5.	Influence of masseter muscle thickness on buccal corridor space and craniofacial morphology- a correlative study
6.	Accuracy of bracket placement between direct and indirect bonding- A Comparative In-Vivo study
7.	Sterilization of extracted human teeth & effect of various sterilizing agents on the fracture resistance of teeth
8.	Evaluation of retention & fracture resistance of different fiber rein forced posts - An In Vitro study
9.	Evaluation of dimensional changes after acrylization of conventional heat cure pressure-packed acrylic resin and injection - molded denture base materials an In-Vitro study
10.	Clinico-radiological evaluation of free grafting of mandibular condyle in displaced condylar fractures
11.	Clinico-radiological evaluation of mandibular angle fracture treated with or without extraction of third molar
12.	Evaluation of fracture resistance of PMMA and reinforced PMMA interim fixed partial dentures - an in vitro study

### MDS

<b>S. No.</b>	<b>Plan of Thesis (Year 2007)</b>
1.	Shear Bond Strength of Light cure Orthodontic Bonding Agents- A Comparative In-Vitro Study
2.	Cephalometric and Facial Photographic Measurements of Craniofacial Form: A Comparative Study
3.	Comparative Study to evaluate the shade matching ability of human eye under different light conditions with digital shade guide
4.	To study the effect of Acrylic Glazing Materials on the Microhardness and stain uptake of Flexible and conventional denture base material-an in vitro study
5.	Comparison of Apical Leakage between immediate versus delayed Post Space preparation at two lengths in Root Canals filled with resilon-An in-Vitro Study

6.	Comparison of the Efficacy of 'F-File' with Sonic and Ultrasonic Debridement to remove Artificially placed dentine debris from Human Root Canals-an in-Vitro Study
7.	Effect of Periodontal Therapy on Serum C-Reactive Protein Levels – A Clinical Study
8.	Evaluation of Beta Tricalcium Phosphate in Human infrabony Periodontal Osseous Defects- A Clinical Study
9.	An Evaluation of the Effect of Recasting on the Elemental Release and Cytotoxicity of Base Metal Alloys
10.	Clinical Evaluation of Immediately Loaded and Unloaded Implants in Edentulous Mandible
11.	A Comparative Study of Reconstruction of Alveolar Clefts with Mandibular Symphyseal Graft vis-à-vis Iliac Crest Bone Grafts
12.	Efficacy of Platelet Rich Plasma in Enhancing the Osteogenic Potential of Bone Graft in Oral and Maxillofacial Region
