

LIST OF PROTOCOLS SUBMITTED BY THE POSTGRADUATE STUDENTS

GENERAL SURGERY

S. No.	Plan of Thesis (Year – 2008)
1.	"A study of morbidity of temporary loop ileostomy in cases of perforation peritonitis"
2.	Effect of open tension free bilateral mesh inguinal hernioplasty on vas deferens function
3.	Study of hyperbilirubinemia in patients with amoebic liver abscess
4.	Comparison of 'Fistulectomy' and 'Fistulotomy with marsupialisation' in the management of simple anal fistula: A randomised clinical trial
5.	A study on quality of life and rehabilitation needs of breast cancer patients
6.	An evaluation of lingual mucosal graft in management of urethral strictures
7.	Correlation of coagulation markers with axillary lymph node metastasis in carcinoma breast
8.	A clinico-bacteriological study of post-operative wound infections
9.	A controlled study of risk factors in patients with benign prostatic hyperplasia and carcinoma prostate
10.	Role of hyperbilirubinemia: a new diagnostic tool as a predictor of gangrenous/perforated appendicitis
11.	A comparative study on elective laparoscopic cholecystectomy with and without antimicrobial prophylaxis
12.	Effect of addition of levamisole to standard anthracycline-based neoadjuvant chemotherapy on local immune response in invasive breast cancer
13.	The effect of laparoscopic cholecystectomy on gastro-oesophageal reflux using 24 hours ambulatory oesophageal pH monitoring
14.	Role of video assisted thoracoscopic surgery (VATS) in chest trauma patients failing to recover expectedly on tube thoracostomy: A prospective clinical trial
15.	Utility of radioiodine (¹³¹ I) uptake and technetium (^{99m} Tc) scan in the evaluation of the thyroid status following subtotal thyroidectomy for multinodular goiter.
16.	Predicting operative difficulties during laparoscopic cholecystectomy using clinical and ultrasonographic criteria

17.	A prospective randomized clinical trial to compare the efficacy & tolerability of phytotherapy versus potassium citrate in the medical management of mild renal stone burden
18.	Evaluation of the role of diagnostic laparoscopy in patients presenting with non specific abdominal pain and its correlation with clinical and radiographic findings.
19.	To evaluate the clinical outcome of laparoscopic anterior partial fundoplication for gastro esophageal reflux disease (GERD)
20.	To compare the effectiveness of ultrasonically activated scalpel (harmonic scalpel)® with electrocautery in removal of gall bladder from the gall bladder bed.
21.	Study of clinical outcome of pyelotomy incision with cold knief versus monopolar cautery in laparoscopic pyelolithotomy
22.	Clinical profile and management of posterior urethral valves in children
23.	Comparison of CT angiography, digital subtraction angiography and color doppler scanning in the evaluation of aortoiliac occlusive disease - study of 20 cases
24.	The role of honey impregnated dressings in healing of chronic wounds and comparison with conventional methods
25.	Limb salvage in bone tumors
26.	To study the efficacy of antibiotic (nitfuratoin) coated catheter in prevention of catheter associated urinary tract infection

GENERAL SURGERY

S. No.	Plan of Thesis (Year – 2007)
1.	Study of Subclinical Hypothyroidism in Gallstone Disease
2.	To Evaluate the Role of Photoselective Vaporisation of Prostate (PVP) with Potassium- Titany1- Phosphate (KTP)/ Greenlight Laser in the Treatment of Benign Prostatic Hyperplasia
3.	Comparison of Kugel's Patch Repair with Lichtenstein Repair for Inguinal Hernia
4.	Clinical, Radiological and Pathological Evaluation of Residual Disease in women Receiving Neoadjuvant Chemotherapy for Locally Advanced Breast Cancer
5.	Evaluation of Changes in Sperm Morphology and Semen Parameters following Varicocelectomy
6.	To study the Alteration in Blood Ionized Calcium, Parathormone, Calcitonin, Vitamin D ₃ and Serum Albumin following Thyroidectomy
7.	Evaluation of Microsurgical two Suture Longitudinal Intussuception Technique of Vasoepidymostomy

8.	Comparison Between Gallbladder Fasting Volume and Postprandial Emptying in Patients with Gallstones and Healthy Controls
9.	A Comparative Study of Harmonic Scalpel Assisted Clipless Laparoscopic Cholecystectomy to Clipped Laparoscopic Cholecystectomy
10.	Role of Anal Manometry in Surgery for Fistula-in-Ano
11.	Study of Effect of Neoadjuvant Anthracycline Based Chemotherapy on Change in CD10 Receptors in Invasive Breast Cancer
12.	The Role of Antibiotic Prophylaxis in Elective Tension Free Mesh Inguinal Hernia Repair
13.	Laparoscopic Total Extraperitoneal Meshplasty and Open mesh repair in Patients with Bilateral Inguinal Hernia: A comparative study of outcome and patients satisfaction
14.	A Prospective Study of Clinicopathologic Profiles of Patients with Benign Breast Disease
15.	Prospective Randomised Study to Compare Cryosurgery and Rubber Band Ligation in Treatment of Patients with Grade I and II Uncomplicated Symptomatic Internal Hemorrhoids
16.	Role of Virtual Cystoscopy (Pneumocystoscopy) in Detection of Bladder Pathology: A Prospective Study
17.	Evaluation of Efficacy of Diosmin in Patients with Chronic Venous Insufficiency – A Randomized Placebo – Controlled Trial
18.	A Study of Spectrum of Presentation, Lab Diagnosis, and Validation of POSSUM Scoring in Patients with Enteric Perforation Peritonitis
19.	A Prospective Randomised Evaluation of Intra-Abdominal Pressure with Crystalloid and Colloid Resuscitation in Burn Patients
20.	Comparative Study of Different Treatment Option of Grade III and IV Diabetic Foot Ulcer to Reduce the Incidence of Amputations
21.	Assessing the change in nutritional profile of patients undergoing emergency ileostomy and to compare it with initial disease severity
22.	To Correlate the Levels of Her2/ Neu (C-ERB-B2) and Cytokines (TH1 δ TH2) I axillary drain fluid after modified radical mastectomy with response to Neoadjuvant chemotherapy in breast cancer
23.	A Comparative Study of USG- Guided Needle Aspiration Vs Conservative Management of Uncomplicated Amoebic Liver Abscess
24.	Prospective Analysis of the Management of Small Bowel Obstruction using Oral Contrast Agent

25.	Correlation of Clinical Staging, Radiological Locoregional Staging, Psa, Prostatic Biopsy Gleason score and Bone Scan in Newly Diagnosed cases of Carcinoma Prostate
26	Role of Prostaglandin E1 (Alprostadil) in the Management of Unreconstructable Critical Limb Ischemia
27.	A Comparative Study of Photoselective Vaporization of Prostate Versus Conventional Transurethral Resection of Prostate in Benign Prostatic Hyperplasia
28.	Clinical Profile of Intraabdominal Hypertension
29.	To Compare the Efficacy of Intralesional Bleomycin with Sodium Tetracycline Sulphate in Treatment of Haemangiomas and Lymphangiomas
