

**TITLE OF THESIS SUBMITTED BY THE POSTGRADUATE STUDENTS**  
**OBSTETRICS & GYNAECOLOGY**

<b>S. No.</b>	<b>Plan of Thesis (Year 2009)</b>
1.	Evaluation of uterine tamponade using condom catheter balloon in management of non traumatic post partum hemorrhage
2.	Clinical experience with gonadotrophins in in-vitro fertilisation (IVF)/ assisted reproductive technologies (ART)
3.	Screening for premalignant and malignant lesions of cervix by HPV testing, Pap's smear and aided visual methods in perimenopausal and postmenopausal women.
4.	A study to assess the need of hospitalization in women with threatened preterm labor between 28 to 34 weeks of gestation.
5.	Evaluation of inflammatory and abnormal pap smears by concurrent use of visual screening methods, high risk human papilloma virus DNA detection and colposcopy
6.	Comparison of oral estradiol with vaginal estradiol in overcoming unsatisfactory colposcopy
7.	Intravenous iron sucrose versus oral iron in treatment of anemia in pregnancy
8.	To study the effect of low dose mifepristone on the endometrium, endocrinal profile and the size of uterine leiomyoma in reproductive women
9.	Role of Doppler ultrasonography combined with serum vascular endothelial growth factor (VEGF) in the evaluation of adnexal masses
10.	Serum homocysteine and folate as a predictor of materno-fetal outcome in Preeclamptic women
11.	Study the changes in fetoplacental circulation and its effect on perinatal outcome following maternal betamethasone administration in preterm pregnancies complicated with intrauterine growth restriction
12.	The role of fetal inflammatory response syndrome in preterm parturition in pregnant women with genitourinary tract infection
13.	Role of Hysterolaparoscopy in Infertile women with failed Intrauterine Insemination

14.	Role of Transvaginal Ultrasonographic cervical assessment in predicting the outcome of induction of labor
15.	Study of transvaginal ultrasonography in relation to histopathological features in women with dysfunctional uterine bleeding in premenopausal age group
16.	A randomized controlled trial to study the effect of pre-induction maternal hydration on amniotic fluid volume and fetal outcome in pregnant women with oligohydramnios
17.	Role of thyroid autoimmunity and thyroid dysfunction in patients with recurrent pregnancy loss
18.	Maternal and perinatal outcome in antepartum hemorrhage
19.	Evaluation of infertile women by laparoscopy
20.	Evaluation of p16INK4A in cervical intraepithelial neoplasia
21.	Evaluation of nerve fibers in the eutopic endometrium as a potential diagnostic marker for endometriosis
22.	Relationship between polymorphisms in thrombophilic genes and preeclampsia/ eclampsia in Indian population
23.	Evaluation of labetalol as an alternative to magnesium sulfate in the prevention of eclampsia
24.	Evaluation of salivary progesterone as a biochemical marker to predict preterm birth in asymptomatic high risk women
25.	The effect of different regimens of hormone therapy on tear composition and secretion in postmenopausal women
