

TITLE OF THESIS SUBMITTED BY THE POSTGRADUATE STUDENTS
ORTHOPAEDICS

S. No.	Plan of Thesis (Year 2009)
1.	Outcome of shortening osteotomy in cases of unstable thoraco lumbar burst fractures
2.	Evaluation of farthoscopic bursectomy in the management of impingement syndrome with type 1 and type 2 acromion
3.	A comparative study of double-bundle anterior cruciate ligament reconstruction using autogenous four strands Vs six strands hamstring tendon graft
4.	Study of helical anatomical intramedullary nail in treatment of closed diaphyseal fracture of femur in adult
5.	Biological osteosynthesis in the management of fractures of distal 1/3 femur
6.	Midterm functional outocmes after Ponseti's method of correction in clubfoot
7.	A comparative study of clinical examination, MRI and diagnostic arthroscopy in the diagnosis of chronic anterior cruciate ligament and meniscal injuries
8.	Fractures of distal humerus-short term outcome analysis of principle based parallel plating technique
9.	Comparison of external fixation versus distraction plating in distal radial fractures: a randomized controlled study
10.	Comparison of minimally invasive locking plate versus interlocking nail in extra-articular distal tibial fractures- A randomized controlled trial
11.	Measurement of glenoid version in human cadaver scapulae and living subjects
12.	MR evaluation of tubercular lesion in spine
