

**TITLE OF THESIS SUBMITTED BY THE POSTGRADUATE STUDENTS**  
**PATHOLOGY**

<b>S. No.</b>	<b>Plan of Thesis (Year 2009)</b>
1.	Clinicohistopathological and immunopathological study of cicatricial alopecia
2.	Expression of Er-Alpha, Er-Beta and PR in breast cancer and their correlation with tumor staging and grading
3.	Assessment of angiogenesis and proliferation in multiple myeloma
4.	To study the expression of sex steroid hormone receptors in non neoplastic and neoplastic lesions of thyroid
5.	Comparative diagnostic study of the expression of HER- 2/neu in Breast Cancer on trucut biopsy specimens by immunohistochemistry and fluorescence in situ hybridization
6.	Clinicopathological study of vesicobullous diseases of the skin with speical reference to direct immunofluorescence
7.	Comparison of Liquid based cytology with conventional cytology in the evaluation of abdominal masses
8.	Study of pattern of ovarian germ cell tumors at a tertiary hospital and role of sall4 and oct3/4 as diagnostic immunohistochemical marker of ovarian germ cell tumors
9.	Cytomorphological patterns in lymph node tuberculosis and their correlation with bacterial density
10.	Clinicopathological study of ovarian tumors in a tertiary hospital over 20 years and correlationof foxl2 with inhibin and calretinin in the diagnosis of sex cord stromal tumors
11.	Sequential molecular monitoring by chimerism studies in recipients of Allogeneic Hematopoietic stem cell transplant
12.	Analysis of Molecular Markers as predictors of biological behavior in carcinoma of gall bladder
