

MD - ANAESTHESIOLOGY

Title (Plan of Thesis) 2010-2013

Efficacy of ultrasound guided transversus abdominis plane block and caudal block on postoperative analgesia in children undergoing lower abdominal surgery - A randomised study

Comparative evaluation of combitube, easytube and endotracheal tube for controlled ventilation during general anaesthesia

Comparison of I-gel and laryngeal mask airway supreme : A randomized study

Effect of intraoperative high and low tidal volume mechanical ventilation on systemic inflammatory response and postoperative organ failure in patients of perforation peritonitis - A randomized controlled trial

Effect of three different doses of epidural buprenorphine on ambulation and analgesia in patients undergoing lower abdominal surgery

Effect of different doses of phenylephrine hydrochloride for treatment of hypotension during spinal anaesthesia in patients undergoing elective caesarean section

Clinical performance and respiratory parameters during use of I-gel and proseal LMA in patients undergoing laparoscopic surgery : A randomized study

Incidence of chronic persistent postsurgical pain and assessment of patient functional status after surgery : A prospective observational survey

Effect of oral gabapentin premedication on haemodynamic parameters and postoperative pain in patients of laparoscopic cholecystectomy : A randomized double blind controlled study

Use of proseal LMA in patients undergoing elective LSCS under general anaesthesia - A randomised controlled study

Evaluation of "Standard and large-adult long cuffs" for blood pressure measurements at upper arms and thighs to find a suitable single cuff appropriate for both sites

Efficacy of pregabalin alone and in combination with pulsed radiofrequency ablation for the management of postherpetic neuralgia : A randomised, double blind, controlled study

A comparative study of two different doses of clonidine with ropivacaine and ropivacaine alone in caudal epidural analgesia in children

Study of oral triclofos sodium versus oral midazolam for sedation in children undergoing computed tomography

Comparative study of ondansetron and palonosetron as prophylactic antiemetic therapy in patients undergoing laparoscopic surgery

A comparison of dexmedetomidine plus ketamine combination with dexmedetomidine alone for awake fiberoptic nasotracheal intubation: A randomised controlled study

A randomized controlled trial to evaluate the effect of addition of intrathecal clonidine to hyperbaric bupivacaine on postoperative pain after lower segment caesarean section

A randomized controlled trial to compare the clinical efficacy of epidural ropivacaine and bupivacaine

Comparative evaluation of oral versus nasal fiberoptic intubation in patients undergoing elective surgery

A comparative study of oral pregabalin vs clonidine as premedication on haemodynamic response to intubation, postoperative pain, nausea and vomiting in patients undergoing laparoscopic cholecystectomy

A prospective randomized study to evaluate and compare different methods of nasogastric tube insertion in anaesthetized and intubated adults

Evaluation of paediatric I-gel™,A supraglottic airway device, as a conduit for fibreoptic aided intubation - A prospective observational study

Comparative evaluation of two different doses of fentanyl with and without supplemental midazolam for proseal laryngeal mask airway insertion conditions in unparalyzed patients induced with propofol

A prospective randomized study to evaluate and compare intubating laryngeal mask airway and AIR-Q intubating laryngeal airway

Comparison of orotracheal and nasotracheal fiberoptic intubation in simulated cervical spine injury under conscious sedation

Comparative evaluation of combined ilioinguinal iliohypogastric block versus caudal block using ropivacaine & clonidine for paediatric postoperative analgesia following inguinal hernia repair

Comparative evaluation of the efficacy of intrathecal fentanyl, clonidine and fentanyl-clonidine combination as adjuvant to bupivacaine for lower abdominal surgery

Comparative evaluation of airtraq versus macintosh laryngoscope guided tracheal intubation in adult patients

A randomised double blind comparison between intravenous dexmedetomidine and midazolam for sedation in patients undergoing elective mechanical ventilation after major surgeries

Comparative study of effectiveness of clonidine and dexmedetomidine added to epidural bupivacaine and fentanyl in enhancing postoperative analgesia after total knee arthroplasty

Effects of low dose intrathecal dexmedetomidine and low dose intrathecal clonidine on characteristics of bupivacaine spinal anaesthesia in knee replacement surgeries

Comparison of fiberoptic guided intubation via the classic laryngeal mask airway and l-gel : Influence of operator experience
