

## MD -MDS

**Title**  
**(Plan of Thesis) 2011-2014**

Evaluation of oral health of 6-10 years asthmatic children receiving bronchodilator through inhaler and beneficial effect of oral health counselling after 6 months

Effect of different patterns of breastfeeding on oral health status of children at 3-5 years of age

Assessment of mandibular distraction regenerate by ultrasonography and cone beam CT

Comparison of computer controlled delivery versus syringe delivery of local anesthesia in periodontal therapy : A clinical study

Comparison of root canal cleaning ability of rotary and reciprocating file techniques : A scanning electron microscopic study

CBCT analysis : A comparative study of dentin removing ability of newer NiTi rotary instruments in curved root canals

Comparative evaluation of the soft tissue response and esthetics of the titanium implants with zirconium collar and the titanium implants with titanium collar - An *In-Vivo* study

Comparative evaluation of the marginal fit, internal fit, and microleakage of pressable lithium disilicate ceramic, CAD/CAM lithium disilicate ceramic and CAD/CAM zirconia ceramic onlays - An in vitro study

Comparison of butamben based antiseptic paste, low power laser therapy and Er:Cr:YSGG laser irradiation in the management of alveolar osteitis : A prospective clinical study

Evaluation of changes in pharyngeal airway following twin-block therapy - A cephalometric & MRI study

Comparison of shear bond strength and SEM evaluation of ceramic surface etched with laser, sandblasting and acid

Treatment of periodontal infrabony defects with demineralised freeze dried bone allograft alone or in combination with platelet rich fibrin : A clinical study

Influence of method of conditioning on tensile bond strength of composite bonded to Er, Cr:YSGG laser and bur prepared dentin - An in-vitro study

Dye penetration and radiographic analysis of the effect of sprue design on the surface defects and internal porosities of RPD framework castings

Spectrophotometric analysis of the color stability of opaque porcelain of varying thickness when subjected to repeated firing cycles

Incidence of ocular injury in midface trauma: a prospective study

Comparison of 4% articaine HCL and 2% lidocaine HCL with epinephrine 1:100,000 for surgical extraction of lower third molar
