

**MS (Ophthalmology)**  
**Title (Plan of Thesis)**  
**(Session 2013-2016)**

<b>S.No.</b>	<b>Title (Plan of Thesis)</b>
1.	Evaluation of amniotic membrane transplantation in pterygium surgery.
2.	Effect of steep meridian incision in patients with $\leq 1.0$ diopter corneal astigmatism after phacoemulsification cataract surgery.
3.	Central corneal thickness and corneal diameter in preterm and term newborns and preterm neonates at term age.
4.	Phenotypic variations in ocular alignment in children and adolescents with cerebral palsy.
5.	Effectiveness of x-chrom lenses in altering colour perception in colour vision deficient subjects.
6.	Comparative study of minimally invasive strabismus surgery with conventional strabismus surgery for horizontal recti.
7.	Comparison of simple limbal epithelial transplant (SLET) vs conjunctival limbal autograft transplant (CLAU) in chronic ocular burns.
8.	Evaluation of tarsectomy with levator resection in the treatment of congenital ptosis.
9.	Comparison of external and laser conjunctivo-dacryocystorhinostomy using jones tube in proximal blocks.
10.	Comparative study of anterior and nasal transposition versus anterior transposition of inferior oblique muscle for dissociated vertical deviation.

**MS (Ophthalmology)**  
**Title (Plan of Thesis)**  
**(Session 2013-2016)**

11.	Subthreshold diode micropulse laser photocoagulation versus observation in the treatment of acute central serous chorioretinopathy.
12.	Effect of pretreatment metabolic risk factors on response of intravitreal triamcinolone acetonide following by macular laser treatment in diabetic macular edema.
13.	Evaluation of electrophysiology and optical coherence tomography before and after intravitreal triamcinolone for macular oedema due to retinal venous occlusion.
14.	Evaluation of primary open angle glaucoma with respect to selected life style disorders.
15.	Efficacy of superior rectus resection and inferior rectus recession for management of hypotropia in monocular elevation deficiency type II.
16.	Study of ocular parameters in anisometropia with and without amblyopia.
17.	Burden and depression in primary caregivers of persons with visual disability.
18.	Phacotrabeculectomy versus phacotrabeculectomy with autologous anterior lens capsule application.
19.	Comparative evaluation of the functional and cosmetic outcomes of three different techniques of external dacryocystorhinostomy.
20.	To evaluate the diurnal variation in intra ocular pressure in cases of primary open angle glaucoma pre and post antiglaucoma medication.
21.	To investigate the role of internal limiting membrane peeling in cases of recalcitrant diabetic macular edema.

**MS (Ophthalmology)**  
**Title (Plan of Thesis)**  
**(Session 2013-2016)**

22.	To evaluate the proportion of primary open angle glaucoma in patients of obstructive sleep apnea.
