

**MS (General Surgery)**  
**Title (Plan of Thesis)**  
**(Session 2014-2017)**

S.No.	Title (Plan of Thesis)
1.	Effect of closed subcutaneous suction drain in prevention of laparotomy wound complications in generalised peritonitis.
2.	A study of Evaluate fundus-first laparoscopic cholecystectomy in patients with frozen calot's triangle.
3.	Current Spectrum of Acute Intestinal Obstruction: A Cross sectional study.
4.	Evaluation of the Outcome of Endoscopic assisted component separation, reinforced with laparoscopic meshplasty in the management of large midline ventral hernias.
5.	Evaluation of the risk factors of wound dehiscence after emergency laparotomy in a tertiary healthcare centre.
6.	A study of systemic inflammatory response markers in breast cancer.
7.	Assessment of pain and quality of life after laparoscopic Ventral hernia repair.
8.	Serum magnesium level in patients of type 2 diabetes mellitus with foot ulcer.
9.	Association of Helicobacter pylori with symptomatic gallstone disease.
10.	Evaluation of changes in ano-rectal manometry following conservative management of fissure-in-ano.
11.	Clinical Spectrum and Hormonal profile of patients with non-inflammatory benign breast disorders.

**MS (General Surgery)**  
**Title (Plan of Thesis)**  
**(Session 2014-2017)**

12.	To compare the efficacy of Fnac with open biopsy of testis in infertile males for grading of spermatogenesis.
13.	Evaluation of anal and rectal pressure in sitting and squatting position in patients with clinical evidence of obstructed defecation syndrome.
14.	To evaluate the role of intra abdominal pressure in causation of fascial wound dehiscence.
15.	Assessment of existing criteria for elective drainage of solitary liver abscess in multiple liver abscesses.
16.	Assessment of Risk Factors in Abdominal wound dehiscence using rotterdam risk index model.
17.	Randomized control trial for evaluating the effect of high dose Vitamin D Supplementation on response to Neoadjuvant chemotherapy in patients of carcinoma breast.
18.	A randomized controlled trial comparing transfascial suture fixation vs metallic tacks for fixation of mesh in laparoscopic ventral hernia repair.
19.	A randomized control study comparing the outcome of clipless versus conventional laparoscopic cholecystectomy.
20.	A randomized control study comparing outcome of heavy weight mesh versus light weight mesh in laparoscopic totally extraperitoneal repair of inguinal hernia.
21.	Clinicopathological study of small bowel perforations.
22.	Comparison between harmonic scalpel and electrocautery in modified radical mastectomy.

**MS (General Surgery)**  
**Title (Plan of Thesis)**  
**(Session 2014-2017)**

23.	A randomized controlled trial of percutaneous drainage versus open necrosectomy in patients of necrotising pancreatitis.
24.	Drain Vs no drain in duodenal ulcer perforation repair a randomized controlled trial.
25.	Feasibility of Laparoscopic mini gastric bypass in morbidly obese patients.
26.	A randomized controlled trial of needle aspiration under ultrasonographic guidance versus incision and drainage of breast abscess.
27.	To evaluate the feasibility and clinical outcome of rossetti modification of laparoscopic floppy nissen fundoplication for Gastroesophageal reflux disease.
28.	Role of Multi Detector computerized tomography in detection of bowel ischaemia in patients with small intestinal obstruction.
29.	A case control pilot study of HER2/neu expression and pesticide levels in cases of carcinoma urinary bladder.
30.	An exploratory study on clinicopathological features & risk factor profile in young women with breast cancer (Age <40 years)
31.	Narrow Bore Vs wide bore nephrostomy tube after percutaneous nephrolithotomy- A randomized prospective clinical study.
32.	Observation of Risk Factors in Patients of Renal stones.
33.	Locoregional Perioperative Morbidity Following lichtenstein Hernioplasty with or without use of inguinoscrotal compression support: A randomized control trial.

**MS (General Surgery)  
Title (Plan of Thesis)  
(Session 2014-2017)**

34.	Perioperative Post-Stie morbidity following extraction of gallbladder from epigastric or umbilical port in labaroscopic cholecystectomy – A Double blinded randomized control trial.
35.	Diagnosis of Acute Appendicitis: Usefulness of Alvarado Scoring & Emergency ultrasound.
36.	A study on severity of long term complications and body image concerns after mastectomy Vs Oncoplastic surgery in patients of breast cancer.
37.	Role of morbidity and mortality meetings as quality improvement tool in patient care.
38.	Comparison of ileostomy stoma-bag with and without linseed oil padding in preventing peristomal excorlation: A randomized clinical trial.
39.	Port site infiltration and extra-peritoneal instillation of ropivacaine in totally extraperiotoneal hernia repair: A raandomized controlled trial.
40.	Epidemiology of Epididymo-orchitis hospital based observational study.
41.	Quality of patient care in elective inpatient surgery at a tertiary care public hospital in Delhi.
42.	Single dose versus three day course of ciprofloxacin prophylaxis in transrectal prostate biopsy: A randomized clinical study.
43.	A case control pilot study of serum organochlorine pesticide levels and expression of Vitamin D receptor gene in patients with renal calculi.

**MS (General Surgery)**  
**Title (Plan of Thesis)**  
**(Session 2014-2017)**

44.	Evaluation of laproscopic gastric sleeve resection for the management of morbid obesity.
45.	A prospective study of clinico-pathological features of leg ulcers.
46.	Comparative analysis of causative factors of carcinoma oral cavity in Indian population.
47.	Study of preference of surgical procedure (Breast Conservation Surgery or Modified Radical Mastectomy) in Carcinoma Breast cases in Indian population.
48.	Rate of Surgical site infection in diabetic and non diabetic patients post cabg (A comparative study)
49.	Correlation between C-reactive protein, LDH, TLC and Ultrasonographic findings with per-operative findings in cases of acute appendicitis.
50.	Study of Tumor Marker CA-19-9 in extra Hepatic biliary diseases.
