

MD (General Medicine)
Title (Plan of Thesis)
(Session 2015-2018)

S.No.	Title (Plan of Thesis)
1.	Study of clinical profile in systemic sclerosis patients and correlation of pulmonary function and interstitial lung disease
2.	A study of risk factors, clinical profile and short term outcome of acute cerebrovascular disease associated hyponatremia
3.	A study of clinical profile, Etiologies and outcome in admitted patients with hyponatremia in a tertiary care Hospital
4.	A study of pulse pressure, corrected QT interval and QT dispersion profiles in type 2 diabetes mellitus
5.	A study of association between type-II diabetes mellitus, Hypothyroidism and micro vascular complications
6.	Clinicolaboratory profile with special reference to nutritional status in patients of chronic obstructive pulmonary disease
7.	A study of effect of iodinated contrast agents on thyroid functions
8.	A study of clinical profile of acute confusional state in elderly
9.	Study of the functional status of the elderly patients (≥ 60 Years) presenting to the geriatric-Medical OPD in a Tertiary care Hospital
10.	Glucose metabolism disorders in Indian patients with liver cirrhosis
11.	A Clinicoepidemiological study of stroke in Indian women with implication of gender on Mortality and Dependency
12.	A study of diagnostic accuracy of potentially potentially diagnostic clues in a case of fever of unknown origin.
13.	A study of Thyroid function in patients admitted in ICU

MD (General Medicine)
Title (Plan of Thesis)
(Session 2015-2018)

14.	Study the efficacy of angiotensin converting enzyme inhibitors and angiotensin receptor blocker with/without hydrochlorthiazide in achieving 24 hour blood pressure control
15.	A prospective study of Psychological distress and presence of anemia and chronic kidney disease in patients with acute coronary syndrome
16.	To study Coagulation factor VIII and fibrinogen levels in patients with thyroid disorders.
17.	Comparative study of adequacy of hemodialysis using different methods in end stage renal disease patients undergoing regular hemodialysis
18.	Profile of Interstitial lung diseases in Indian Patients
19.	Study of Biomarkers in acute liver failure and sub acute liver failure and its correlation with clinical and prognostic outcome.
20.	Assessment of factors determining outcome in adult patients with tetanus
21.	To study the association of bronchiectasis in patients of chronic obstructive pulmonary disease and its correlation with the severity of disease.
22.	A study on the prevalence of sensorineural hearing loss in patients of chronic myeloid leukemia.
23.	To study the factors affecting adequate anticoagulation in treatment naïve patient started on oral anticoagulants
24.	To study the prognostic value of adrenomedullin in patients of sepsis
25.	To study the correlation of copd assessment test (CAT) and clinical copd questionnaire (CCQ) score with bode index in patients of stable copd.

**MD (General Medicine)
Title (Plan of Thesis)
(Session 2015-2018)**

26.	To identify the sensitivity of parameters of pulmonary function testing and flow volume loop for diagnosis of upper airway obstruction
27.	Bleeding profile in adult patients with hemophilia
28.	Clinicopathological profile of patients with chronic kidney disease of unknown etiology
29.	Assessment of determinants of quality of life in people living with HIV (PLHIV)
30.	Upper gastrointestinal endoscopic evaluation of patients of rheumatoid arthritis on NSAIDs/DMARDs (Nonsteroidal Anti-inflammatory Drugs/Disease Modifying Antirheumatic Drugs)
31.	Assessment of incidence of aspiration among intubated patients on mechanical ventilation: A risk factor for ventilator associated pneumonia (VAP)
32.	Association of glycated albumin and glycosylated hemoglobin (HbA1c) with short term outcome in patients with myocardial infarction
33.	Association of frailty with success of thrombolysis in elderly (≥ 60 years) population with ST-elevation Myocardial Infarction
34.	Rate of Accumulation of health deficits in community-dwelling older individuals
35.	Protein energy wasting and its association with frailty in non dialysis dependent chronic kidney disease
36.	A comparative study of serum vascular endothelial growth factor in patients with tuberculous meningitis with and without stroke
37.	A study of carotid atherosclerosis in patients with tuberculous lymphadenitis-A pilot study

**MD (General Medicine)
Title (Plan of Thesis)
(Session 2015-2018)**

38.	Assessment of cardiovascular risk factors and subclinical atherosclerosis in patients with connective tissue disorders
39.	To evaluate adiponectin for prediction of gestational diabetes mellitus
40.	Study of glycemc status in patients with liver cirrhosis
41.	Spectrum of renal involvement in cancer patients
42.	Simplified acute physiology score III and acute physiology and chronic health evaluation IV scoring system as mortality predictor in organophosphate poisoning
43.	Analysis of the clinical and laboratory profile of patients with abdominal vein thrombosis
44.	A study of relation between glycemc variability and mortality in critically ill patients
45.	Outcome of patients of CVT treated with LMWH at three months
46.	Use of Galactomannan enzyme immunoassay in diagnosis and monitoring of invasive aspergillosis in patients of acute leukemia and allogenic hematopoetic stem cell transplantation
47.	Anaemia in systemic lupus erythematosus: Aetiological profile and corrolation with various autoantibodies
48.	Study of sleep apnoea in patients with stable heart failure
49.	Comparison of sequential and conventional therapies in eradication of H. Pylori in antral gastritis
50.	Risk stratification of multiple myeloma patients and to assess the response to induction therapy in various risk groups

**MD (General Medicine)
Title (Plan of Thesis)
(Session 2015-2018)**

51.	A study to analyze the relationship of serum uric acid levels with coronary atherosclerotic burden in patients of acute coronary syndrome
