

**MS (General Surgery)
Title (Plan of Thesis)
(Session 2015-2018)**

S.No.	Title (Plan of Thesis)
1.	Outcome analysis of laparoscopic ventral hernia repair post mesh fixation : An observational study
2.	A Clinico-Radiological study of Post-operative port site complications after elective laparoscopic cholecystectomy
3.	Evaluation of Patient Outcome following Laparoscopic Composite Mesh Reinforcement of 5cm All Around the Midline Closure After Endoscopic Component Separation in Large Midline Ventral hernia
4.	Serum 25-Hydroxy vitamin D levels and mammographic breast density in patients with malignant and benign breast disease
5.	Quality of life assessemnt after inguinal mesh hernioplasty
6.	Evaluation of changes of sphincteric tone by rectal manometry in patients of complex fistula in ano undergoing video assisted anal fistula treatment procedure
7.	Role of Tumour Markers CA 125 and CEA in diagnosis of carcinoma gall bladder
8.	Effect of active gas suctioning on Postoperative pain after laparoscopic cholecystectomy
9.	Comparison of core needle biopsy with post operative histopathology for the assesment of biological markers in carcinoma breast- A prospective study
10.	Randomized controlled study between 1.5% glycineand sterile water as irrigation fluids for transurethral resection of prostate

MS (General Surgery)
Title (Plan of Thesis)
(Session 2015-2018)

11.	A randomised Control study to evaluate the role of double J stent versus no stent in patients of renal and upper ureteric calculus undergoing extracorporeal shockwave lithotripsy (ESWL)
12.	To study the effect of octreotide on magnitude and duration of Lymphorrhoea in patients undergoing modified radical mastectomy.
13.	A randomised, controlled study of autologous, platelet rich plasma application versus conventional normal saline dressings in healing of diabetic foot ulcers
14.	Randomized controlled study of video assisted anal fistula treatment with and without fibrin glue
15.	Randomized control study comparing lactulose to polyethylene glycol for bowel preparation in colonoscopy.
16.	Comparison of AIR cavigram with ultrasound for assessment of resolution of liver abscess
17.	Comparison of Lichtenstein repair versus tension free mesh free tissue repair (Desarda Repair) in the management of Inguinal hernias
18.	Comparison of pre-operative single dose vs an additional 3 days post operative antibiotics in patients undergoing modified radical mastectomy
19.	To compare bedside index of severity in acute pancreatitis (BISAP) scoring with computed tomography severity index in predicting morbidity and mortality in acute pancreatitis.
20.	Comparative study of use of ringer lactate solution V/S normal saline infusion in patients with early acute gallstone induced pancreatitis
21.	Randomized controlled study comparing foam sclerotherapy with radiofrequency ablation for treatment of primary varicose veins

**MS (General Surgery)
Title (Plan of Thesis)
(Session 2015-2018)**

22.	Conservative management versus emergency open appendicectomy as primary treatment of uncomplicated acute appendicitis- A randomized clinical study
23.	Comparison of Effectiveness of Ceftriaxone versus Ciprofloxacin in the Management of Acute Calculus Cholecystitis
24.	Randomised study comparing effect of restricted vs liberal fluid administration on post-operative clinical outcome after laparoscopic cholecystectomy
25.	A Case control study of clinical, genetic and environmental risk factors in patients of Fibroadenoma Breast- A pilot study
26.	Fosfomycin Tromethamine versus Ciprofloxacin in the initial treatment of Symptomatic UTI-A Prospective randomized clinical study
27.	A case control pilot study of CYP2A6 gene polymorphism and urinary cotinine levels in cases of carcinoma urinary bladder
28.	Measures to improve quality of care in patients with temporary Ileostomy: A feasibility study
29.	Risky Behaviour and Role of Specially Designed Preventive Interactive Session in Countering the same in RTI survivors and their attendants
30.	Susceptibility of Aerobic bacteria isolated from anal fistula discharge to silver nitrate: An in-vitro analytical pilot study
31.	Assessment of two Modalities of skin closure following laparotomy in non-traumatic perforation of small intestine-A randomized prospective study
32.	Quality assessment of Laparoscopic Cholecystectomy at GTB Hospital-A prospective Descriptive study

**MS (General Surgery)
Title (Plan of Thesis)
(Session 2015-2018)**

33.	Microscopic Diagnosis, CT scan, And selective therapeutic trial in the Diagnosis of abdominal Tuberculosis
34.	A prospective study of evaluate postmastectomy sensory changes and persistent pain in patients of breast cancer
35.	Feasibility, Acceptability and complications of total extraperitoneal repair and Lichtenstein's repair as day care procedures- A pilot RCT study
36.	Effect of Doner nephrectomy on clinical, biochemical profile and renal function of live kidney doner
37.	A prosepective study on the Therapeutic use of oral CT Contrast in Adhesive Intestinal Obstruction
38.	Role of proactive parathyroid identification and preservation during total and near total thyroidectomy in preventing hypocalcaemia
39.	A comparative study of Alvarado & Ripasa scoring systems in diagnosis of acute Appendicitis
40.	Effect of Laproscopic Gastric Sleeve Resection on insulin Resistance in Morbid Obese Patient
41.	A Critical evaluation of Preoperative 256 slice CECT scan in Carcinoma stomach
42.	Clinico-Pathological correlation of serum PSA levels in patients of Prostate Enlargement
43.	Risk Prediction of DVT using Caprini Score and effects of Thromboprophylaxis on prevention of DVT in post operative patients

**MS (General Surgery)
Title (Plan of Thesis)
(Session 2015-2018)**

44.	Sentinel lymph node mapping in patients of locally advanced breast carcinoma following anthracycline based neoadjuvant chemotherapy.
