

MS (Orthopedics)
Title (Plan of Thesis)
(Session 2015-2016)

S.No.	Title (Plan of Thesis)
1.	The evaluation of Calcaneal lengthening in treatment of planovalgus feet deformity in children
2.	Mid term outcome of neglected clubfoot treated by ponseti method
3.	Short term outcome of arthroscopic management of rotator cuff tear
4.	Wrist joint skeletal changes in adults with transfusion dependent thalassemis- A Cross sectional study
5.	Outcome of anterior cruciate ligament reconstruction by press-fit fixation technique
6.	To study anatomical variations of 1,2 inter compartmental supra retinacular artery based vascularised bone graft in Indian population-A cadaveric study
7.	Intrathecal pressure variation following cerebrospinal fluid drainage and surgical decompression in patients of acute spinal cord injury of dorsal spine fractures: A prospective randomized trial
8.	Evaluation of patient specific acetabular jig for cup placement in total hip arthroplasty
9.	Evaluation of Extracorporeally Irradiated/Inactivated Autograft Prosthesis Composite limb reconstruction in malignant and locally aggressive bone tumours- A pilot study
10.	Comparative evaluation of periarticular infiltration of two cocktail regimens for analgesia in post operative patients of total knee replacement
11.	Randomised controlled study comparing the outcome of decompression with or without instrumentation in thoracic spine tuberculosis

MS (Orthopedics)
Title (Plan of Thesis)
(Session 2015-2016)

12.	The effect of remnant preservation on clinico-radiological outcomes in anterior cruciate ligament reconstruction-A prospective comparative study.
13.	Interobserver variation in TULI's classification for tuberculosis of dorso-lumbar spine in adults with neurological deficit
14.	Evaluation of change in American Orthopaedic Foot and Ankle Society (AOFAS) Ankle hind foot scale following single injection of Platelet Rich Plasma (PRP) in Plantar Fasciitis
15.	Morphometric study of the cervical spine pedicles in adult indian population
16.	Evaluation of efficacy of antitubercular therapy (ATT) in healing of TB spine clinico-radiologically, Heamatologically, by contrast MRI and 18-FDG PET/CT Scan
17.	Comparison between exposed and buried kirschner wires used for fixation of displaced paediatric fractures of lateral condyle of humerus
18.	Assessment of usefulness of CT Scan in pre-operative planning of intertrochanteric fractures
19.	Assessment of Femoral and Tibial Component Rotation in total knee Arthroplasty: A CT Scan based Observational Study
